IPA IIIc project:
**Flexible manufacturing
of customized spinal
orthoses - OrtoFLEX**

Objectives

Overall objective

Developing the concept of low-cost flexible manufacturing system for customized spinal orthoses.

Specific objectives

Transferring acquired knowledge to SMEs associated with the project, transferring the gained experience to further projects in domain of medicine technique and preparing ground for future laboratory of medicine technique (abbr. LaMeT) at the Mechanical Engineering Faculty in Slavonski Brod.

The project OrtoFLEX is co-financed by the European Union under the European Regional Development Fund (ERDF) in the amount of 466 562,83 euros.
